## BUSTING CHURCH ADMINISTRATOR MYTHS

---

All they care about are policies & procedures.

They relish the chance to squash your latest ministry idea.

They're all about the Benjamin's

They're antisocial

They love Excel, charts, graphs, & details

They're using their God-given talents to serve people...just like you.

They're looking out for you, the congregation, and the big picture.

They care about making sure the church is a good steward of the money God entrusted to it.

They may simply prefer interacting with smaller groups and need alone time to recharge.

Maybe, but only because they know these tools can support ministry.
